Ardmore, Sunday, January 3, 1915.

The Philippine uprising received an early puncture.

Sazanoff, the Russian war minister, says not much.

January will witness the cutting of a big democratic pie in Oklahoma City.

Bill Hinds is the man who should be hanged for setting the example before Tom Hunter.

Gov. Dunne of Illinois, who is an advocate of simplified spelling, might begin on his own name.

George Evans of the Chickasha Express is the only Oklahoma editor who has the courage to attempt to describe Oklahoma weather.

This is the first Sunday of the New Year. There is a church just around the corner from you, where a message awaits you. Begin the New Year right, and go to church today.

It is suggested in Switzerland that a brick wall be built on the Swiss line on the German side, sufficient to withstand the German howitzers. It is also noticeable that the suggestion comes from the brick manufacturers.

STATE CAPITOL COMMISSION.  
We see considerable talk in the press of the state about changing the capitol commission. This talk seems to us as a mighty good way to delay the building of our state house. This commission is composed of three good, honest men and who, if permitted to, will give us a building worth the money it will cost. Neither of these men will stand for, or be a party to, graft. The legislature made no mistake when this commission was selected. But a very serious blunder could and would be made should the commission be disbanded.

This commission has had more than a year to work out the details of this big problem, and it is a big proposition. This talk of consolidating the duties of this commission with that of the board of public affairs and allowing one board to handle the proposition, is more foolish talk, and another step towards delaying the completion of this most important job.

We understand the state is paying something like \$80,000 annually rent, for the scattered quarters which the different departments are now forced to occupy. That being true, then how important it is to push the work on this building. We hope the next legislature will not be foolish enough to interfere with this commission, but on the contrary, will do whatever is necessary to assist the commission in pushing this work along. We hope to see the political game called off and permit this commission to go on and complete the building as quickly as men and money can do it, as it is undoubtedly for the best interests of the taxpayers to have that done. — Tecumseh County Democrat.

## THE PEOPLE'S FORUM

## GOOD PEOPLE AT HOMER

MR. EDITOR:

I just want you to give me enough space in your paper to correct an error that has been going through the papers. I notice in some of the papers they say that on Christmas Day an old man who was acting as an officer, was beaten up by a bunch of toughs at Homer. Now, that is one statement that is not true. Now, I deny that charge on the Homer bunch.

I am a citizen of Homer, and near the spot that the scrap was pulled off on and there was not a Homer man that touched the old man.

Now, I do not deny the charge that there was a very lively time on the streets of Homer Christmas, and lots of the boys had lots of Christmas, but I didn't see a rumpus of any sort out of the Homer toughs. There was but one man engaged in the scrap with the officer, and he was not a citizen of Homer.

Now in regard to the Homer people having the name of toughs, you can judge for yourself. This is the first time I have seen an officer on the streets of Homer for the purpose of keeping down any disturbance in four years.

Now, if there is a bunch of toughs in Homer I don't know them and would like to have the reporter point them out to me.

A. J. ALLEN.

## RED CROSS NURSE TELLS OF CONDITIONS IN SERVICE

London, Jan. 2.—(Correspondence of The Associated Press). A Serbian Red Cross nurse, writing to the Serbian relief committee in London, describes conditions in Serbia as follows:

"I have seen five wars—what is Serbia's history but a series of wars?—but never have I seen such sudden and terrible destitution. Wounded are lying everywhere. In the houses, on the streets, in the squares, and we are disturbed in our efforts to care for them by the crowd of fugitives constantly pouring in.

"We give what we have, but it is so little, and we are always short. The doors of the Red Cross depot are thronged with supplicants for food and lodging. You know how proud our people are. Nobody wanted to be rich, for all had enough and now for the first time we realize that we are poor. There is not a family unhurt by the war.

"We have soup kitchens, refugees, hospitals, at every turn—all in desperate need. Bakers and butchers are ruined, for we have no money to pay them. One baker said to me weeks ago: 'I have no son to send to the war, but I will give what I have.' He supplied our hospital gratis with bread until his flour gave out. Now he is bankrupt.

"At Svilanits three thousand waifs and wanderers arrived last week. The people took them in. I am convinced that not a household in that town now has a full meal.

"Yet we do not lose heart. Many of the soldiers give us money if they can. Yesterday we got contributions of 70 dinars (\$14), and in three cities a total of 2,250 dinars (\$450), was collected in two days. This is an enormous sum in Serbia, where a grosh (four cents) is no commoner than a pound sterling (\$5) in England."

## SCRIPTURE

## Genesis 1:1-10

In the beginning God created the heaven and the earth.

And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters.

And God said, Let there be light; and there was light.

And God saw the light, that it was good; and God divided the light from the darkness.

And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day.

And God said, Let there be a firmament in the midst of the waters, and let it divide the waters from the waters.

And God made the firmament, and divided the waters which were under the firmament from the waters which were above the firmament; and it was so.

And God called the firmament Heaven. And the evening and the morning were the second day.

And God said, Let the waters under the heaven be gathered together unto one place, and let the dry land appear; and it was so.

And God called the dry land Earth; and the gathering together of the waters called he Seas; and God saw that it was good.

LEGISLATION  
PROPOSED BY  
SOCIALISTSPLAN PROGRAM, AND AMONG  
OTHER THINGS, ASK EXEMPTION FROM TAXATION OF  
HOUSEHOLD PROPERTY.

Oklahoma City, Jan. 2.—The legislative program mapped out by the socialist state convention in this city this week includes a great many things. The program is designed to be a guide to socialist members of the legislature, and they are expected to hammer away on these lines whatever may be their degree of success or disappointment. Among the items are demands for equal representation among the three dominant parties on all election boards; that any initiated measure shall become a law when it receives a majority of the votes cast thereon; that the legislature shall have no power to amend or repeal any law adopted by the people under the initiative and referendum; that any county or subdivision thereof in Oklahoma may establish warehouses, gins, mills, elevators and other industries with the restriction and use of credit of such county or subdivision to any amount necessary; that public school teachers shall have civil service protection and equal pay for men and women teachers; that money of the state shall be loaned upon warehouse certificates for non-perishable farm products at a rate of interest not to exceed 5 per cent; that school boys shall be furnished by the state free to pupils in the public schools; that the state shall establish hospitals for the treatment of tuberculosis or other diseases requiring special treatment; that jury commissioners shall be elective and jurors selected from the voting list of the counties.

This program also asks that exemption from taxation be allowed on all dwellings, improvements, domestic animals, and implements on farms to the extent of \$1,000. They also recommend that lands held for speculation shall be taxed upon its full rental value. Some other recommendations are as follows:

A measure providing that all land now owned by the state or hereafter acquired by the state to be rented to landless farmers at the prevailing rate of share rent, the payment of said rent to cease when the total amounts to the rent paid equals the cost of the land, the right of continuous occupancy to be vested in the tenant and his heirs, the title to remain in the state.

A measure providing that no summons, execution, writ of attachment or replevin shall be issued by any court in this state until after an affidavit has been made and filed that usurious interest has not been charged and is not sought to be collected with proper penalty for making a false affidavit.

A measure to repeal the law limiting the time for securing signatures for initiative and referendum petitions.

A measure providing that an actual residence of thirty days in the county and ten days in the precinct shall be sufficient time for fixing the qualification to vote. The right to vote shall not be lost until after the expiration of twenty-nine days from the date of removal from one county to the other in this state.

A measure depriving the governor of this state of the power of veto.

An amendment abolishing the state senate.

A measure abolishing the appointive power and providing for the election of all officers, state and county.

A measure reducing the present mileage of members of the legislature from 10c per mile to the actual cost of transportation.

An amendment to the constitution giving equal suffrage to both men and women.

We recommend that our members in the legislature accept no committee assignments; that they form themselves into a separate legislative group and vote as a unit upon all measures presented by this group. We recommend that they consult with the state executive committee when possible upon questions of legislation involving socialism, demands or party politics. We recommend that they take no part in the election of any clerk, page or other officer of the legislature outside of their own member or party.

RHEUMATISM GOES  
IF HOOD'S IS USED

The genuine old reliable Hood's Sarsaparilla corrects the acid condition of the blood and builds up the whole system. It drives out rheumatism because it cleanses the blood thoroughly. It has been successfully used for forty years.

For rheumatism, stomach and kidney troubles, general debility and all ills arising from impure blood, Hood's has no equal. Get it from your nearest druggist today.

Visited Old Friends.  
Judge William F. Freeman returned yesterday from Frankston, in east Texas, where he visited with old friends. He left here Tuesday and took advantage of the holiday season to see some old friends in the "piney woods," which, after all, are the best friends in the world. He says the people there talk hard times some, but with that, the barns are full and the pantries are well supplied.

County Health Officer.  
Dr. Walter Hardy has received his appointment to succeed himself as health officer of Carter county. His commission expires December 31, 1915. The appointment was made by Dr. J. C. Mahr, state health commissioner. Dr. Hardy has held this place since statehood, and has done so well that Dr. Mahr is keeping him in the harness.
